SKILLS

Technical Skills:

• **Languages:** HTML - CSS - JavaScript

• **Frameworks/Libraries:** Bootstrap - Tailwind CSS - React

• **Version Control:** Git

• **Tools:** Chat GPT - Copilot

Soft Skills:

• Communication

• Team Collaboration

• Quick learner

• Time Management

• Critical Thinking

• Empathy

OBJECTIVE

Aspiring Frontend Developer eager to excel in a dynamic environment that not only hones my current skills but also fosters continuous learning and growth. Committed to contributing innovative solutions and delivering exceptional user experiences.

SUMMARY

As an aspiring Frontend Developer, I am fueled by a passion for crafting seamless user experiences through a blend of creative design and robust coding. Proficient in HTML, CSS, and JavaScript, I am eager to elevate my skills further by diving into frameworks like React.js. My hands-on experience includes spearheading the development of an E-commerce website with an Admin dashboard, showcasing my skills in DOM manipulation, API integration, and collaboration using version control systems like Git. I thrive in dynamic environments, adapting quickly to new technologies, and I am currently gearing up to embrace React.js as my next learning milestone. I am enthusiastic about contributing to innovative projects that challenge and elevate my skills. Open to opportunities that foster continuous learning, collaboration, and a commitment to delivering exceptional frontend solutions.

EDUCATION

Management Information System, El Obour Institute
2020 - 2024

Bachelor of Commerce.

Pursued a comprehensive curriculum at El Obour Institute, specializing in Management Information System. Developed a solid foundation in various aspects of IT, including database management, system analysis, and software development. Acquired valuable problem-solving skills and a strategic understanding of how information systems contribute to organizational success.

Software Engineer (12 months), ALX - Africa
2023 - 2024

Software Engineer | Frontend Specialize.

Engaged in an intensive Software Engineering program at ALX - Africa, with a focus on frontend development in Short Specializations curriculums. Delved into cutting-edge technologies, advanced coding practices, and industry-relevant projects. Acquired hands-on experience

in creating responsive and visually appealing user interfaces, honing skills in HTML, CSS, and JavaScript. The program at ALX equipped me with the expertise to contribute effectively to the dynamic field of frontend development, emphasizing collaboration, innovation, and a results-driven approach.

PROJECTS

E-commerce website

Technologies:

- HTML
- CSS
- Vanilla JavaScript

Led the development of a dynamic E-commerce website specializing in hardware products, featuring a user-friendly interface and an efficient Admin dashboard. Proficiently utilized HTML, CSS, and Vanilla JavaScript to craft a seamless user experience, showcasing my expertise in manipulating DOM and BOM. Implemented advanced functionalities such as real-time updates on the landing page for new categories and products, achieved through API integration using Fetch and Ajax. Additionally, leveraged AI tools like Chat GPT and Copilot to enhance workflow efficiency. Check out the project on GitHub for a closer look E-Store Project.
